CENTRONICS ANNOUNCES NEW LOW COST 88 CHAR/SEC, 132 COLUMN LSI PRINTER

Hudson, N. H. (as dated) - Robert Howard, president of Centronics Data Computer Corp. (NYSE) today announced the addition of the new Model 588 serial matrix impact printer that operates at 88 characters per second. "The new Model 588 is the lowest cost 132 column impact printer in its speed range," Mr. Howard stated. "The introduction of the new 588 will assist our OEM customers to meet current and new market potentials for their products with a lower total system cost to the user. By utilizing the 588, users will now be able to increase their printing speed to 88 characters per second as compared
