

The Gemini Series - laptop/printer cases

The Gemini Series of laptop and printer cases is the ultimate tool for turning your laptop and printer into a portable office. Three case sizes offer you the versatility to choose a case to meet your specific application.

With printer paper stored and ready to print, just open the case and hardware is ready to use. Other features include a padded handle, shoulder-strap and Gemini's patent-pending Lock-Down system. Storage space is also provided for diskettes, manuals and power supplies.
