Radio Shack® CUSTOMER SERVICE BULLETIN

400 Atrium—One Tandy Center, Fort Worth, Texas 76102

Bulletin No.	<u>4534-03 (Correction 1)*</u>
Description	<u>SCRIPSIT DICTIONARY</u>
Model	<u>Model II</u>
Stock No.	<u>26-4534 Ver. 01.00.00</u>
Date	<u>August 8, 1983</u>
Page 1 of	<u>1</u>

Problem

The manual states that you may have up to five (5) hyphenation marks in a word in the MYWORDS file. However, after converting Scripsit Mywords Document to ASCII, the UDUPDATE program returns a message of "Input File MYWORDS Has Invalid Record Length (Not Equal To 1)".

* * THE FOLLOWING PATCH IS REQUIRED! * *

Solution

*The correction is underlined.

After the patch from this Bulletin have been applied, the version number will be 01.00.01. Please make the necessary entry in your Version Log.

The following patch should be applied before installation of the Scripsit Dictionary. However, it can be applied after installation of the Dictionary to Scripsit.

It should be done on the hard disk and on the diskette that will be used for future installation.

Apply the following patch:

PATCH UDUPDATE.SCRIPSIT A=31d8 F=05 C=06
