XEROX

AMERICARE™

Intensive care for your PC system.

Fast, guaranteed service.
Emergency supplies.
IBM PC enhancements.

Your AMERICARE Service Center...the emergency room for your PC system needs.

Xerox presents the "Emergency Room" for your PC systems, whether or not they're from Xerox.

The AMERICARE Service Center.

What happens when your PC system breaks down?
It's more than an inconvenience.
In today's world, it's an emergency.

That's why Xerox—a leader in service and microprocessor technology—has established a network of "Emergency Rooms" throughout the country to give you the fast, intensive care your system needs when there's trouble.

The AMERICARE Service Centers assure you that you'll get professional, guaranteed Xerox service that brings your system back to life quickly.

And AMERICARE services many leading brands of personal computers, printers, disk drives, monitors, and peripherals.

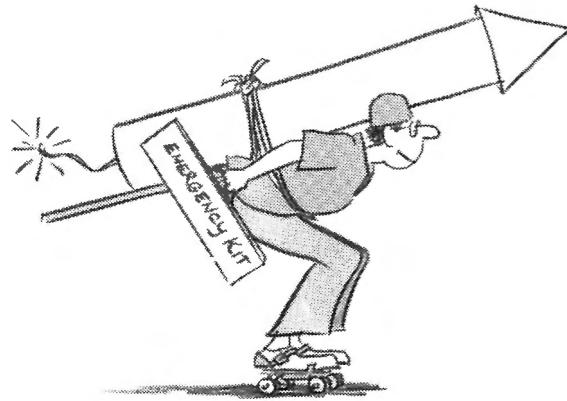

And we go beyond just repairs.

Your AMERICARE Service Center also offers you enhancements for your IBM or compatible PC system, allowing you to get more power out of older systems.

And, we're always ready with a full array of supplies for many brands of systems hardware, including printwheels, ribbons, and disks. We also stock Xerox copier and office supplies, including paper, developer, toner, dry ink, tapes, ribbons, and printwheels.

AMERICARE brings intensive care to PC systems.

Xerox-trained technicians know computer hardware inside and out. Just as important, we carry large inventories of factory-approved parts. No matter what the emergency, you've got the best possible solution standing by.

It's fast!

Usually within 48 hours, often faster!

It's guaranteed!

We guarantee the work we do... a quarter century of reliable Xerox service experience assures it. We'll also give you a full service estimate before the work is done.

It's service the way you want it

Three convenient service options for you:

1. Carry-in—simply drop your PC system off at your local AMERICARE Service Center.
2. Pick-up and Delivery—we'll arrange for your system to be picked up, we'll repair it, then return it to you.
3. On-Site—When you purchase an AMERICARE Maintenance Agreement, we'll come right to you, and make repairs at your location.

It's protection you can purchase many ways

- The most economical protection may be to purchase an affordable AMERICARE Maintenance Agreement while your system is still healthy, or under warranty. You won't have to spend an extra cent as long as your contract is in effect.
- After we repair your equipment, you can purchase a Maintenance Agreement for 12 or 24 months... that's up to two full years of protection for all parts and labor.
- Or, you can have your system repaired on a time and materials basis.

And, it's intensive care for the leading brands of PCs and peripherals.

Alignment and repair available on most popular brands

New products are being added regularly. Check with your local AMERICARE Service Center if yours is not listed.

OR CALL 1-800-HELP 4 PC NOW!

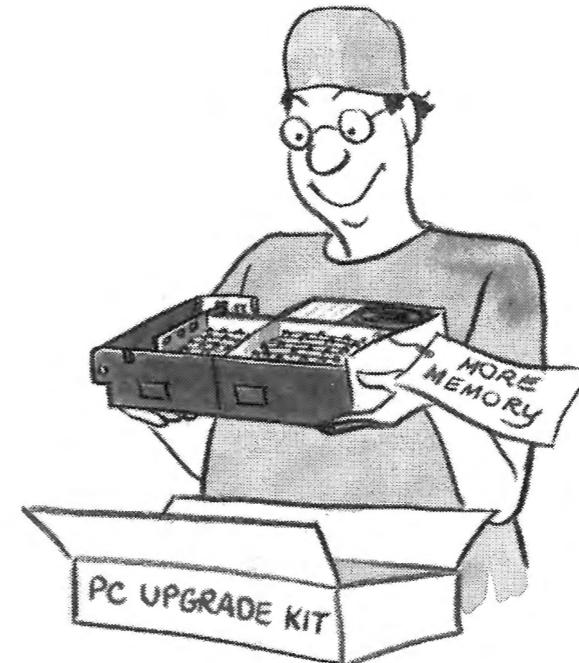

AMERICARE also increases the power and flexibility of your IBM or compatible PC.

With PC system innovations being introduced all the time, chances are you're not getting all you should from your present PC.

With powerful enhancements, AMERICARE can make your system more capable than you ever thought it could be.

Result: upgrading your present equipment to state-of-the-art will cost far less than a new system.

Want it smarter?

Xerox can add chips to your PC's memory board, or put in new boards, to increase its processing capability.

Want it stronger?

We can upgrade your PC with an internal rigid disk drive with a 10 or 20MB capacity. Imagine... getting 5,000 pages of storage per 10MB vs. 180 pages for an average floppy disk... getting information *30 times faster*... and, minimizing the risks of loss and failure that vulnerable floppy disks present.

Want it more flexible?

Your AMERICARE Service Center also stocks and installs a variety of expansion boards for IBM and compatible PCs that will make them more versatile. Now, you can add graphics not originally designed for such systems... and do much more in almost every aspect of business!

Out of supplies? That's an emergency, too.

Help is as close as your nearest AMERICARE Service Center. We stock supplies for many Xerox office products, and PC supplies for many other brands... items that can shut you down when you run short—a situation as serious as a systems failure itself!

We stock and sell Okidata, Epson, Silver Reed, Kaypro, Juki and NEC ribbons and printwheels.

An entire array of emergency supplies awaits your needs:

PCs

Floppy disks, rigid disks and head cleaning kits.

Ribbons and tapes

Correctable, non-correctable, film, fabric, high-yield, lift-off tape, cover-up tape and cleaning kits.

Diablo Printwheels

PICA-10, Elite 12, Courier 72, OCR-A, Apl-10 and many others.

Memorywriter printwheels

Roman PS, Courier 12, Courier 10, Boldface PS, Orator 10, Script 12, Boldface Italic, Letter Gothic and all other popular typestyles.

And Xerox copiers

Paper, labels, developer, toner, dry ink, and dry imager.

Need supplies in a hurry? Call Your Local Service Center or 1-800-HELP 4 PC NOW!
