## PRESTODIAL AUTOMATIC DIALER

PrestOdia! makes your telephone an automatic, high speed business machine. It saves you time and effort three ways; no more looking up numbers; 50% faster dialing of 7, 8, 10 and 11 digits; no more embarrassing, expensive wrong numbers. Dials automatically, local, long distance, dial 9, intercom, etc. PrestOdia! makes automatic dialing available and practical for every business and household. The patented new disk memory system is easy to use and allows you to change numbers in seconds. This is a rugged, electro-mechanical system that has nothing to adjust, wear out or fail. Because 17,000 installations show a near perfect record, PrestOdia! guarantees your unit including both parts and labor. Most important, PrestOdia! is the only automatic dialer you can buy instead of having to pay multiples of purchase price in years of monthly charges.

**\$99.50**

## AUTOMATIC PHONE-ANSWERING TELEPHONE DEVICE

Simply put your phone on "Valet" and connect

**\$99.50**

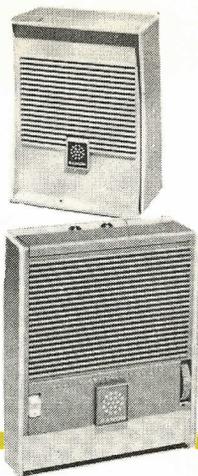

(Shipping charge \$2.00)

**YOUR OWN PRIVATE ANSWERING SERVICE— USE YOUR OWN TAPE—  
RECORDER OR ORDER OUR HIGH FIDELTY COMPATABLE RECORDER...**

At the ring of the call-bell gives the party calling your message pre-recorded on the endless cartridge tape housed in "Valet." Then the connected tape recorder automatically records his message.

\*Operates on household current 117V for USA area or 220V for European area.  
COMPATABLE HIGH FIDELITY TAPE RECORDER \$69.95 (Shipping charge \$1.50)

## DOOR INTERCOMS

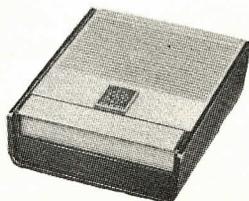

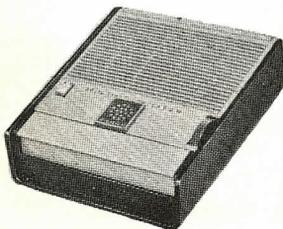

### MODEL No. ES16DC

No. ES16DC (battery operated) Answer the door safely without opening it. The remote unit is weather-proof for outdoors and is designed to be either surface mounted or recessed. It provides ideal protection from strangers at the door. Acts as a "night watchman" and lets you hear the kids at play. **\$25.95**

### MODEL No. 1600 DC

(Battery operated) Easily installed up to 150 ft. apart. This system comes complete with one master unit and 50 feet of cable with plug-in connectors for "instant" installation. Both units have been designed for either wall mounting or table use. The master unit has a press-to-talk bar with a lock knob (for continuous "hands-free" talking) on-off switch volume control and a 2½" speaker. **\$25.95**

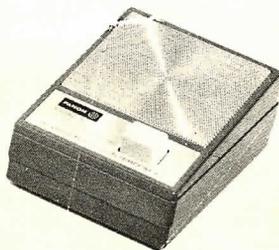

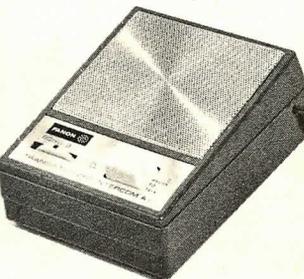

### MODEL No. EC-2

(Battery powered intercom) Budget-prices, battery powered 2-station intercom system can be used anywhere, since it operates on a standard 9-volt battery (not included) **\$13.95**

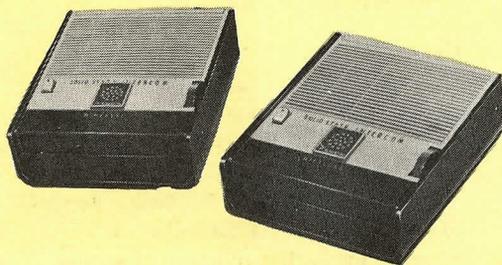

### MODEL No. EC-3

(AC operated intercom) Lowest priced AC operated intercom system These ultrasensitive three-transistor units, with high-gain, push-pull amplifier circuit, produce fine voice clarity through 2½" speakers. Built-in AC power supply. Both master and remote have the unique "Beep Signal" circuitry and can signal one another even when the system is "off" 50 ft. cable included suitable for wall or table use. **\$16.95**

## INTERCOMS & AMPLIFIERS

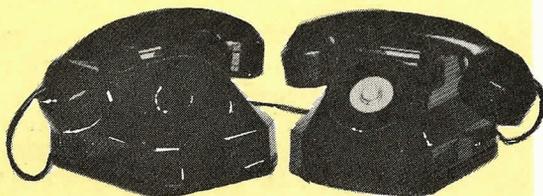

MODEL No. 1640 WIRELESS  
Solid State, Portable, Wire-  
less Two-Station Intercom.  
No installation needed. Just  
plugs into the wall socket.  
Because there are no wires to  
run, these units can be moved  
from room-to-room, from  
office-to-office, wherever there  
is an AC outlet on the same  
line. When one is left "open"  
in the nursery or playroom,  
mother can listen in on the  
children from anywhere in the  
house. Extremely sensitive.

A special variable squelch circuit reduces hum and noise.....Price **\$39.95**

## INTERCOM TELEPHONES

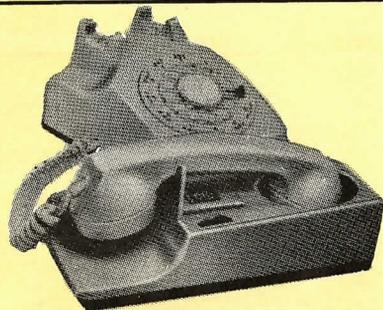

Two telephones, each with a buzzer signal, powered by a single battery fitted into the base of one phone. Phones are connected with 50' of wire 1,000 can be added using the same battery. This is real telephone company equipment, completely refinished and simply rewired, tone transmission is crystal clear. There are no tubes, transistors, etc., to fail. Ideal for homes, offices, factories, warehouses. Unconditionally guaranteed for one year.  
Price **\$29.95** Complete. Less batteries.

## TELEPHONE AMPLIFIER

"Hands-Free Telephone Operation for Greater Efficiency and Convenience in the Office and at Home.

Consists of a transistorized receiving/amplifying unit and a small but powerful extension speaker. It's easy to use. When the phone rings, the handset is picked up, placed on the cradle and the unit is in operation....with both hands free. The outgoing voice is fed through the specially designed acoustic reflector into the telephone handset. No need to touch the instrument. When the handset is replaced on the telephone, the FTA-4 is automatically "off" ..... **\$19.95**

Powered by one 9V-Battery Transformer for 115 Volt electrical connection: \$6.00 add'l

## SERVICE EQUIPMENT

### LINESMAN'S TEST SET

Heavy duty construction. The entire unit is encased in tough pliable rubber extended to protect exposed surfaces, such as the Dial, Transmitter and Receiver.

Nylon braided cord over water proof neoprene insulation to resist weather and wear.

Standard Dial, T-1 Transmitter, U-1

Receiver means less time out of service. The parts you need for emergency repairs are always available. Impervious to damp weather. Does not transmit electrical shocks. No pencil or special tool required for accurate dialing. Powerful, spike-like connector clips give positive line contact. Heavy-duty belt snap for easy carrying. Weight less than 2 pounds.

**\$49.95**

### TELEPHONE TEST LAMP

For use in countermeasure checks when tracing out telephone lines for extraneous connections and to locate telephone line line pairs from the telephone terminal box to a known telephone number.

These miniature lamps clamp on the terminals at the telephone terminal box or anywhere across the telephone

line. Using the Telephone Lineman's Test Set

and dialing the number of the telephone being

checked. THE TEST LAMP ON THE

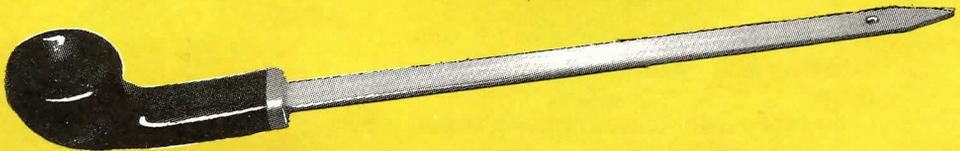

NUMBER YOU DIALED WILL LIGHT

These Test Lamps do not interfere

with the normal operation of the

telephone line being tested.

(Set of (10) ten lamps (instructions included) Price: **\$28.95** per set. **\$12.00** each additional one
