

## Contributors to This Issue

**Anthony S. Acampora**, B.S.E.E., 1968, M.S.E.E., 1970, Ph.D., 1973, Polytechnic Institute of Brooklyn; Bell Laboratories, 1968—. Mr. Acampora initially worked in the fields of high power microwave transmitters and radar system studies and signal processing. Since 1974, he has been studying high capacity digital satellite systems. His current research interests are modulation and coding theory, time division multiple access methods, and efficient frequency re-use techniques. Member Eta Kappa Nu, Sigma Xi, IEEE.

**Dwight W. Berreman**, B.S. (physics), 1950, University of Oregon; Ph.D., 1955, California Institute of Technology, Bell Laboratories, 1961—. Mr. Berreman's thesis work was on X-ray optics and low-angle X-ray diffraction. At Bell Laboratories, he has worked in the fields of lattice dynamics, gas lenses, lightguides, liquid crystals, and X-ray optics. Member, American Physical Society, Optical Society of America.

**A. Carnevale**, B.S. (physics), 1960, Fairleigh Dickinson University; Bell Laboratories, 1969—. At Bell Laboratories, Mr. Carnevale has been engaged in nuclear magnetic resonance, electron paramagnetic resonance, and computer software. For the last two years, his work has been devoted to fiber optics.

**Fan R. K. Chung**, B.S., 1970, National Taiwan University; Ph.D., 1974, University of Pennsylvania; Bell Laboratories, 1974—. Mrs. Chung's current interests include combinatorics, graph theory, and the analysis of algorithms. She is presently investigating various problems in the theory of switching networks.

**Barbara A. Czekaj**, B.S. (Computer Science), 1980, Monmouth College; Bell Laboratories, 1978—. Ms. Czekaj worked part-time for two years in the Radio Research Laboratory, involved in reductions of

multipath fading data and computer analyses of digital radio systems. In May 1980 she became a member of the Business Communications Systems Engineering Center. Member, Association for Computing Machinery.

**Göran Einarsson**, M.S.E.E., 1962, Massachusetts Institute of Technology; Dr. Tech., 1968, Royal Institute of Technology, Stockholm, Sweden. Mr. Einarsson was with the L. M. Ericsson Corp. from 1953-1960 and 1962-1968, working on carrier and PCM-systems. Between 1960 and 1962, he was with the Research Laboratory of Electronics at M.I.T. engaged in research on multipath communication. Since 1969, he has been a professor of communication theory, Electrical Engineering Department, University of Lund, Sweden. He served as a consultant at Bell Laboratories from March to June 1979.

**Wolfgang B. Elsner**, B.S. (E.E.), 1965, M.S. (E.E.), 1967, Ph.D., 1974, Clarkson College of Technology; NASA, Goddard Space Flight Center, Greenbelt, Md., 1966-1967; Instructor at Clarkson College of Technology, Potsdam, N.Y., 1967-1973; Bell Laboratories, 1973—. Since joining Bell Laboratories, Mr. Elsner has been concerned with various aspects of trunk-network engineering. Member, IEEE, Eta Kappa Nu, Sigma Xi.

**David J. Goodman**, B.E.E., 1960, Rensselaer Polytechnic Institute; M.E.E., New York University; Ph.D. (E.E.), 1967, Imperial College, London; Bell Laboratories, 1967—. Mr. Goodman has studied various aspects of digital communications, including analog-to-digital conversion, digital signal processing, assessment of the quality of digitally coded speech, and error mechanisms in digital transmission lines. He is Head, Communications Methods Research Department. In 1974 and 1975, he was a Senior Research Fellow at Imperial College, London, England. Member, IEEE.

**Larry J. Greenstein**, B.S.E.E., 1958, M.S.E.E., 1961, and Ph.D. (E.E.), 1967, Illinois Institute of Technology; Bell Laboratories, 1970—. Since joining Bell Laboratories, Mr. Greenstein has worked on digital encoding, processing, and transmission. His most recent work is in the areas of satellite and terrestrial digital radio. He currently heads the Satellite Systems Research Department. Member, Eta Kappa Nu, Sigma Xi, Tau Beta Pi; Senior Member, IEEE; associate editor, IEEE Transactions on Communications.

**Paul S. Henry**, A.B. (Physics), 1965, Harvard University; Ph.D. (physics) 1971, Princeton University; Bell Laboratories, 1970—. At Bell Laboratories, Mr. Henry has been engaged in research on radio communication and radio astronomy instrumentation. He has worked on quasi-optical frequency multiplexers, frequency-agile millimeter wave sources, and high-resolution millimeter wave spectrometers. His current research concerns analysis and design of high-capacity digital mobile radio systems.

**Arun N. Netravali**, B. Tech. (Honors), 1967, Indian Institute of Technology, Bombay, India; M.S., 1969, and Ph.D. (E.E), 1970, Rice University; Optimal Data Corporation, 1970-1972; Bell Laboratories, 1972—. Mr. Netravali has worked on problems related to filtering, guidance, and control of the space shuttle. At Bell Laboratories, he has worked on various aspects of signal processing and is presently head of the Visual Communication Research Department. He is also an adjunct professor of Electrical Engineering at Rutgers University. Member, Tau Beta Pi, Sigma Xi; Senior Member, IEEE.

**Un-Chul Paek**, B.S. (engineering), 1957, Korea Merchant Marine Academy, Korea; M.S., 1965, Ph.D., 1969, University of California, Berkeley; Western Electric, 1969—. At the Western Electric Engineering Research Center, Princeton, N.J., Mr. Paek has engaged primarily in research on laser-material interaction phenomena and fiber optics. Member, Optical Society of America, American Ceramic Society, Sigma Xi.

**George E. Peterson**, B.S. (physics), 1956, Ph.D. (solid state physics), 1961, University of Pittsburgh; Bell Laboratories, 1961—. At Bell Laboratories, Mr. Peterson did studies on low-noise amplifiers for a short period of time. He then studied laser crystals, nonlinear optic materials, glass structure, and recently propagation of light in optical fibers. Member, American Physical Society, American Ceramic Society, Society for Glass Technology, and the American Crystallographic Association.

**Vasant K. Prabhu**, B.E. (Dist.), 1962, Indian Institute of Science, Bangalore, India; S.M., 1963, Sc.D., 1966, Massachusetts Institute of Technology; Bell Laboratories, 1966—. Mr. Prabhu has been concerned with various theoretical problems in solid-state microwave devices and digital and optical communication systems. Member, IEEE, Eta Kappa Nu, Sigma Xi, Tau Beta Pi, and Commission 6 of URSI.

**Lawrence R. Rabiner**, S.B. and S.M., 1964, Ph.D. (electrical engineering), Massachusetts Institute of Technology; Bell Laboratories, 1962—. From 1962 through 1964, Mr. Rabiner participated in the cooperative plan in electrical engineering at Bell Laboratories. He worked on digital circuitry, military communications problems, and problems in binaural hearing. Presently, he is engaged in research on speech communications and digital signal processing techniques. He is coauthor of *Theory and Application of Digital Signal Processing* (Prentice-Hall, 1975) and *Digital Processing of Speech Signals* (Prentice-Hall, 1978). Former President, IEEE, G-ASSP Ad com; former Associate Editor, G-ASSP Transactions; former member, Technical Committee on Speech Communication of the Acoustical Society. Member, G-ASSP Technical Committee of the Acoustical Society, G-ASSP Technical Committee on Speech Communication, IEEE Proceedings Editorial Board, Eta Kappa Nu, Sigma Xi, Tau Beta Pi. Fellow, Acoustical Society of America and IEEE.

**John D. Robbins**, B.S.E.E., 1976, Rutgers University; Rutgers University, 1979—; Bell Laboratories, 1976—. Mr. Robbins is a member of the Visual Communication Research Department, where he has worked on various picture-coding problems. Member, Tau Beta Pi, Eta Kappa Nu.

**Aaron E. Rosenberg**, S.B. (E.E.) and S.M. (E.E.), 1960 Massachusetts Institute of Technology; Ph.D. (E.E.), 1964, University of Pennsylvania; Bell Laboratories, 1964—. Mr. Rosenberg is presently engaged in studies of systems for man-machine communication by voice in the Acoustics Research Department at Bell Laboratories. Member, Eta Kappa Nu, Tau Beta Pi, Sigma Xi; fellow, Acoustical Society of America; member, IEEE and IEEE Acoustics, Speech, and Signal Processing Group Technical Committee on Speech Processing.

**John Stuller**, B.S.E.E., 1963, Massachusetts Institute of Technology; M.S.E.E.; 1967, University of Southern California; Ph.D., 1971, University of Connecticut; Northrop Nortronics Corp., 1963-1965; TRW Systems Group, 1965-1968; Perkin Elmer Corp. 1970-1971; Department of Electrical Engineering, University of New Brunswick, Fredericton, New Brunswick, Canada, 1971-1974; Bell Laboratories, 1977-1979; University of Missouri, Rolla, Missouri, 1979—. At Bell Laboratories, Mr. Stuller was engaged in analytical and simulation studies of both intraframe and interframe video coders. His primary area of interest is in the statistical theory of communications and its application.

**Jay G. Wilpon**, B.S. (mathematics), A.B. (economics), cum laude, 1977, Lafayette College; Bell Laboratories, 1977—. At Bell Laboratories, Mr. Wilpon has been engaged in speech communications research and is presently concentrating on problems of speech recognition.

**On-Ching Yue**, B.E.E., 1968, Cooper Union; M.S.E.E., 1971, Rochester Institute of Technology; Ph.D. (Information Sciences), 1977, University of California at San Diego; General Dynamics/Electronics Division, 1968-1977; Bell Laboratories, 1977—. Mr. Yue has worked in the areas of underwater acoustics and microwave imaging. Since joining Bell Laboratories, he has been a member of the Radio Research Laboratory, studying the effect of interference on digital communications systems, including intersymbol, adjacent satellite and multi-user interferences. Member, IEEE, Tau Beta Pi, Eta Kappa Nu, Phi Kappa Phi.
